VETCOIN® HQ DISPATCH

CONNECT • ENABLE • TRANSFORM

Vol. 11 2021-12-06

I waited an extra day to release this Dispatch. I'll tell you why at the end.

VetCoin® News: ERC-20 tokens are on the horizon!

Who noticed the new variation of our logo? Good! You likely also noticed when you purchased VetCoin you received ERC-1155 based tokens viewable on OpenSea. VetCoin HQ is in the process of coding VTC, our ERC-20 token *which we will send to your wallet address on record*. Having an ERC-20 token will allow us to move into the exchanges. Worry not, we are developing tutorials and infographics to help folks navigate the transition. Please reach out to us if you have questions or problems.

Special note: if we did not receive your wallet address, and you have not received your VetCoin 1155 tokens, please reach out to our team through the messaging function on the website!

VetCoin HQ: Improving the Foxhole

Improving the foxhole means constantly refining, cultivating, and making progress with the basics. Last week I mentioned how we changed our marketplace to Sua Sponte Design. This week I'm letting you know we have made more updates to our website and branding. Every day we work to make VetCoin a little bit better so it can work for and improve the veteran community

We went to BitBasel… and it was Awesome!

You all received the FRAGO and saw VetCoin HQ deployed our QRF last week. A QRF is a quick reaction force, an element that, as the

name suggests, reacts to emergent situations. We had a very special opportunity provided to us by Sheqonomi to attend the Crypto Queens Soiree and share our vision for helping female veterans. To say we were impressed by what we saw at the soiree is an understatement. We were absolutely amazed!

It's Christmas Season

I love the winter holiday season. Despite how busy we all get, it's a great time to look forward to spending time with the people you care about. This holiday season, consider letting your veteran owned business friends know about our incubator program. And you want to know what works for everyone else? VetCoin of course! The private sale continues so take advantage while you still can!

Russ' Note

Today is the 7th of December, 2021. This is an important day because it was 70 years ago when America experienced "a date which will live in infamy." Though we have Pearl Harbor Remembrance Day in the U.S., the Philippines was also attacked 70 years ago today and we should take a moment to reflect upon our shared experiences.

RLTW!
Russ
